

Equal Rights for Women

Every woman has the right to be as healthy, vigorous and efficient as her husband, son, brother, or friend. Nature intended woman to be unhampered and unhandicapped by any sex weakness. But, unfortunately, woman is very predisposed to constipation, not of necessity, but due to faults or bad habits of omission or commission.

Constipation is nothing but a bad habit. Taking purgative, cathartic, or laxative medicines to force the bowels to move is another bad habit—even a worse habit.

But Nujol is particularly suitable for the overcoming of constipation and its resulting evils in women.

Nujol is not a drug—does not act like any drug.

Nujol acts by bringing about a readjustment of the mechanism provided and intended by Nature for the removal of food waste from the body.

Nujol is effective at any age, under any conditions, especially during those periods and conditions in which the use of purgatives, cathartic or laxative medicines is not only harmful, but dangerous. Nujol is safe, pleasant to take, sensible, agreeable in effects, never forms a bad habit.

Get a bottle of Nujol from your druggist today, and send coupon for free booklet, "Thirty Feet of Danger."

Warning: Nujol is sold only in sealed bottles bearing the Nujol Trade Mark. Insist on Nujol. You may suffer from substitutes.

A Modern Heating System Within Reach of Every Home Owner!

Round Oak Pipeless Furnace
The Best Pipeless Furnace on the Market

Produced and guaranteed by the makers of Famous Genuine Round Oak Stoves, Ranges and Heating Systems—The Beckwith Co. — Dowagiac, Mich. — Established 1871—Capital Two Million.

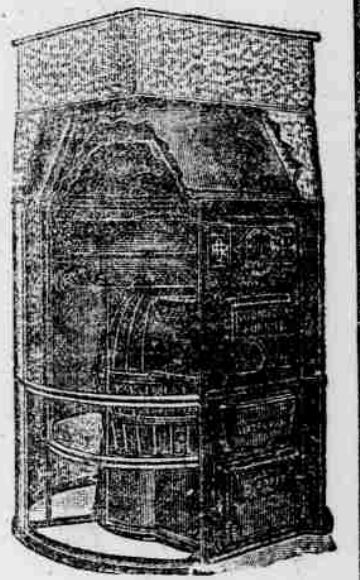

You Should Investigate!

THE MOST ECONOMICAL!
MODERN HEATING SYSTEM
TO BUY—TO OPERATE—
TO MAINTAIN!

Burns Coal or Wood
of Any Kind

Saves 1-3 to 1-2 Fuel Bill

Heats the Entire Home, Large or Small, Upstairs and Down, Old or New, With But One Register

This is accomplished in accordance with one of Nature's own principles—as old as time—the Law of Gravity. Warm air being light, rises. Cold air being heavy, falls.

As soon as the heater is started, a great volume of balmy warm air rises from the center of the register, while at the same time the cold air is drawn

through the outer section of the register and down into air channels surrounding heater—there to be heated, humidified, purified and sent back again an instant later through the center of register.

This circulation continues, reaching every nook and corner of the building, so long as there is any fire in the heater.

Adds to the Value of Any Property More Than the Amount Invested in its Purchase

Requires no space in rooms—least space in basement—does not heat basement enough to necessitate building cold closet for storage of fruits or

vegetables—easiest, least expensive and quickest to install in old or new buildings—reduces fire risk and will last a lifetime, barring abuse.

DOUBT IF YOU LIKE—BUT INVESTIGATE! Your Protection:

Your order for a Round Oak Pipeless Furnace is accepted with the understanding that unless the Trained Heating Engineers of the Manufacturer can safely guarantee it to operate efficiently in your home, it will NOT be installed and we will refund any money paid.

Their decision being made after careful study of conditions in EACH home—no guess work—and protecting all concerned.

This Engineering Service is Free—Ask us for more information about it.

On Display at Our Store, Beginning Thursday, April 10th

We want you to see the Round Oak Pipeless Furnace and talk with the direct factory representatives in charge. You will be interested in the wonderful advantages and simplicity of this new member of the Home-Warming World.

Special 10-Day Offer!

Unusual inducements to those who decide during this period—for immediate or future installation. Details will be announced later.

Valuable Heating Book Free!

Clearly illustrating the many advantages of the Round Oak Pipeless Furnace. Your copy will be ready.

WHEN YOU WANT to put your business before the public, there is no medium better than through the advertising columns of The Bulletin.

Perfect Timing Determines Engine Flexibility

On the precise accuracy of camshaft operation depends the engine's instant response to the slightest regulation of spark or throttle—its flexibility for loafing in traffic or "jumping" the car ahead.

To maintain this perfect rhythm and harmony of valve and ignition mechanism requires correct lubrication—camshaft bearings cushioned against wear and in perfect alignment—cams, gears and tappets working easily and with absolute accuracy. It's the kind of lubrication you get with

Polarine—For All Types of Engines

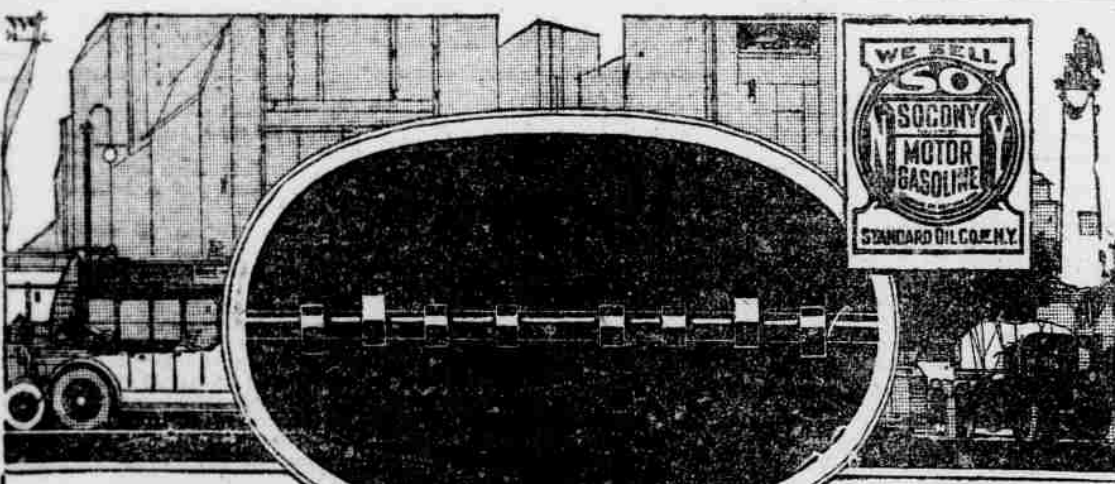

With Polarine you are sure of correct lubrication—tight compression with power a-plenty—protection against friction—load and wear—freedom from rapid carbon fouling—smallest bills for overhauling and repairs.

Polarine Gear Oil coats, cushions and thoroughly lubricates transmission and differential gears. Keeps them operating easily and quietly with minimum wear.

For sale wherever you see the red, white and blue So-CO-ny Sign—at garages and dealers everywhere.
